

BMP Cytology Funnels for the Shandon CytoSpin® Centrifuge

BMP Cytology Funnels are the functional equivalent of the Thermo Shandon CytoFunnel®. Fully compatible with the Shandon CytoSpin Centrifuge, BMP Cytology Funnels can be used to deposit a thin layer of cells in a clearly defined area of a microscope slide. The filter card absorbs any excess fluid. Operation is identical to those supplied by Shandon and easy-to-follow instructions are included in each pack.

Slide Clip not included

BMP Single Cytology Funnel with White Filter Card

- For sample volumes of up to 0.4 mL or less
- Provides consistent and homogeneous cell deposition area of 6 mm
- White Filter Card is pre-attached and is designed for single use only
- Funnel sealing caps included

Part Number	Description	Quantity
BMP-CYTO-S50	Single Cytology Funnel with White Filter Card	50/Pack
BMP-CYTO-S500	Single Cytology Funnel Bulk Pack	500/Case

BMP Double Cytology Funnel with White Filter Card

- For sample volumes up to 0.25 mL per slide
- Provides two 6 mm cell deposition areas on each slide
- White Filter Card is pre-attached and is designed for single use only
- Funnel sealing caps included

Part Number	Description	Quantity
BMP-CYTO-DB25	Double Cytology Funnel with White Filter Card	25/Pack
BMP-CYTO-DB500	Double Cytology Funnel Bulk Pack	500/Case
